

TALYST®

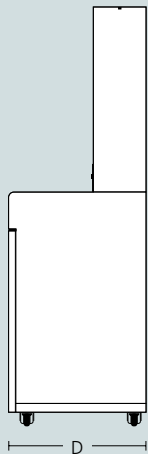

AUTOPACK DEN: Automated Oral Solid Packager

Desk Model Specification Sheet

AutoPack® Desk (DEN) model offers fully automated packaging for oral solid medications. The AutoPack DEN® easily integrates with your pharmacy operations and maximizes space efficiency while maintaining the same high standard of packaging performance as larger models. It will process up to 60 doses per minute and its AutoCanister™ feature allows automated dispensing of half-dose tablets, infrequently used tablets or tablets with special shapes.

- Width:** 37.5"
- Depth:** 21.1"
- Height:** 66.4"
- Weight:** 661 lbs/300 kg

AUTOPACK® DEN: Specifications

Improved Patient Safety

- Allows up to 19 lines of user-defined label space to ensure accuracy and readability
- Enables automated barcoding of oral solid medications and supports your current bedside barcoding system
- Supports Automatic Canister Recognition Systems (ACRS) for accurate storage and packaging

Precise Control and Access

- Works with your current hospital and pharmacy information systems
- Helps track and monitor inventory to manage costs more effectively
- Easy to refill, maintain and operate

Enhanced Efficiency

- Automates up to 33 oral solid medications at one time with a single AutoPack DEN
- Supports packaging other oral medications not stored on the AutoPack DEN with an easy-to-use Special Tablet System (STS) tray
- Can recognize priority and STAT orders for immediate packaging
- Can either stand alone or integrate into the complete Talyst pharmacy automation system through AutoPharm® medication management software
- Works seamlessly with AutoCarousel® to expedite cart fills, order replenishment, and canister refills
