

INSITE® PHARMACY SYSTEM

Specification Sheet

InSite Pharmacy System is part of a complete solution designed to automate in-facility medication packaging and delivery and to enable the pharmacy to accurately track and manage canister inventory levels across facility sites.

Key Benefits:

- Improved Patient Safety
- Precise Control and Access
- Enhanced Efficiency
- Workflow Guidance
- Reduced Medication Errors

INSITE[®] PHARMACY SYSTEMS: SPECIFICATIONS

The InSite Pharmacy System works with real-time inventory data obtained from each InSite System deployed in the field. This information is used by pharmacy staff to maintain efficient medication inventory levels while minimizing the number of canisters in circulation and to determine when to fill and ship canisters.

The InSite Pharmacy System process verifies that canisters are filled with the correct medication and accurately labeled. For facility-based packaging and dispensing, canisters and their inventory are tracked from the time they are shipped from the pharmacy, delivered to the facility, and returned to the pharmacy.

The Pharmacy System resides at the pharmacy and allows authorized users to conduct the following functions:

- Create canister fill labels
- Create and edit drug information
- Create canister build labels
- View and print usage reports
- Verify filled canisters
- Track shipped canisters to and from each site
- Create a shipping manifest

The InSite Pharmacy System is compact, user-friendly, and has exceptional accuracy to improve overall safety and efficiency.

FEATURES

Fill Canisters	Ship Canisters	Print Fill & Build Labels
Build Canisters	Track Canisters	View Reports
Authorize Canisters	Manage Formulary	

WORKSTATION

Pharmacy System Software	Report Printer	Pill Counter
Workstation and Touchscreen Monitor	Chip Writer	InSite Consumable 'starter kit'
Fill Label Printer	Scanner	InSite Pharmacy HUB
Build Label Printer	UPS	Hardware Server (optional virtual server)

RECOMMENDED MINIMUM WORK TABLE DIMENSIONS

Pharmacy	4'0" (W) x 2'2" (D) x 3'3" (H)
Facility	2'2" (W) x 2'2" (D) x 3'3" (H) with printer shelf

POWER

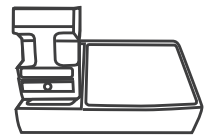

Power Supply	120VAC, 60Hz
